

Xerox DocuShare® and ColorQube™

Save time, money, and minimize your environmental impact with one powerful, cost-effective solution

Do you want to:

Enable your employees to be more productive?

Save time and money?

Reduce your carbon footprint?

Now you can with Xerox ColorQube™ and Xerox DocuShare® content management platform.

Save up to:

- 62 % on color pages *
- 80 % of the time it takes to find critical information
- 90 % less waste vs. comparable laser-printing
- ...all through 100 % Xerox Innovation

Scan, store, share, and print right from your ColorQube™

When you combine the productivity power and affordability of Xerox's ColorQube and DocuShare content management software, your entire team can work smarter and achieve more every business day while reducing your overhead and your overall impact on the environment.

With ColorQube:

- Save paper, money and time by scanning, routing, approving, archiving, and accessing all of your critical content securely via a web browser
- Differentiate your business with high quality color printing at pennies per page
- Save time printing and copy up to 50 pages per minute
- Make two-sided copying and printing your standard and reduce paper consumption by up to 50 %
- Save money by eliminating expensive paper – solid ink prints dense, saturated color on everything from office paper to recycled papers
- Reduce operating costs and service calls by owning one multifunction device instead of four
- Save time –you need to change just one long life Cleaning Unit that averages 200,000 prints before replacing
- Reduce power consumption – ColorQube is ENERGY STAR qualified

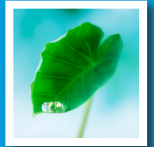

With DocuShare:

- Save up to 80 % of the time it takes to find vital information
- Save up to 50 % of operational costs and labor overhead
- Reduce your carbon footprint: save paper, energy, waste
- Reduce risk by protecting all of your information from loss or damage from natural disasters
- Support compliance by maintaining accurate audit trails

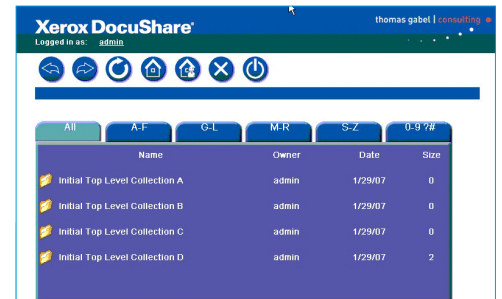

* Savings based on 2009 Gap Intelligence data.

Xerox's innovative solid ink sticks produce 90 % less waste than typical laser technology because they are cartridge free.

Solid ink has a 9 % lower life cycle cumulative energy demand and 10 % lower life cycle global warming potential than comparable laser-printing. Solid ink packaging is made from post-consumer waste and is recyclable.

Access your content from ColorQube

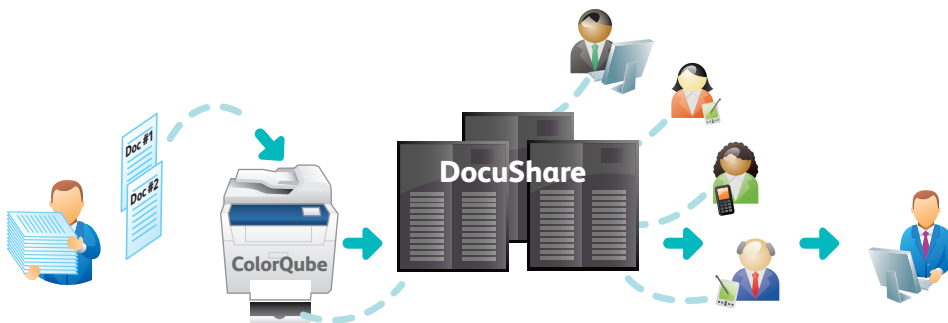

Xerox DocuShare content management platform with Xerox Extensible Interface Platform™ (EIP) lets you easily scan new documents into your DocuShare repository and automate workflows directly from your ColorQube. You can view, print, and route stored documents via your ColorQube, eliminating the need to route paper.

DocuShare + ColorQube deliver extraordinary value and savings while reducing your impact on the environment

The DocuShare content management platform brings proven, award-winning paper-to-digital content management capabilities to businesses of all sizes. Its affordable price and ease of use provide strong ROI to any organization. Staff members can scan documents directly into specific DocuShare collections, initiate workflows automatically, and access or print files right from the control panel of your ColorQube.

Now it's easy for your team to securely find and share business critical content instantly – no more searching through file cabinets or boxes of paper to find the information you need. You can even provide forms via a web browser so employees, customers, and partners can submit and securely share information without driving to an office.

This all reduces energy consumption, paper use, shipping, and fuel emissions, while saving organizations tens or hundreds of thousands of dollars per year.

Scan, store, automate processes, and print right from your ColorQube

The ColorQube 9200 series multi function printers deliver new efficiencies in color printing. They combine solid ink technology that is cartridge-less, which produces far less waste than laser print technology, while offering customizable price plans that can dramatically reduce the cost of color prints. The 9200 series helps you meet your sustainability goals by enabling you to standardize double-sided printing, which can reduce paper consumption by up to 50 %. High quality, low cost color prints helps distinguish your organization while saving you money, so it supports your business and sustainability goals.

IT departments will love the ColorQube 9200 series for its intuitive features and software that reduce downtime and IT support costs. Users will appreciate how easy it is to load ink and replace the cleaning unit, or find answers to their questions from the front panel. And because the ColorQube performs the work of multiple faxes, scanners, and printers, you can consolidate your equipment and reduce operating costs.

Typical Uses for Xerox DocuShare:

- Routing and approval of financial documents, including accounts payables
- HR recruiting, on boarding
- Compliance – detailed repository and audit trails
- Court case management
- Insurance claims processing
- Customer self service
- Intellectual property management
- Mortgage loan applications
- Life insurance forms
- Due diligence support
- Healthcare privacy forms
- Student registration and grade reports
- Jury summons
- Brokerage trading orders/contracts
- Government permits
- Employee evaluations
- SOPs/ISO manuals and handbooks
- Contract renewals
- Management of policies and guidelines
- Legal case management
- Government public records publishing
- Manufacturing product documentation
- Sales Intranet/Extranet website
- Digital file cabinet
- Organizational communications: Newsletter/Calendar/Bulletin
- And much more

DocuShare and ColorQube deliver business value and ROI while helping you meet sustainability goals

- Convert all of your file cabinets and boxes full of paper documents into digital content so you can quickly and easily find information that's currently hidden in file folders.
- Reduce physical document storage and enhance productivity by providing quick access to documents in digital form 24 x 7, from any browser.
- Initiate workflows and process automation directly from your ColorQube or from your computer. This enables organizations to reduce processing time from weeks down to minutes.
- Minimize your carbon footprint by reducing paper, waste, energy use, and by printing with solid ink on recycled stock.

Consistent Industry Recognition

DocuShare continues to lead the industry in ease of use, affordability, and flexibility.

"We've completely automated our accounts payable process. We've saved approx. \$20,000 per month in hard costs and \$240,000 over the year. We're extremely pleased ... end users like it because managers who are not tech-savvy understand it. We see this as a great success story for our company."

David Byng, CIO
Western Forest Products

"DocuShare was a complete, affordable solution out-of-the-box. With other solutions like Documentum you pay per user, and pay add-on charges for the workflow engine. We estimate we'll reach ROI 50% faster with DocuShare."

Colby Giles, IT Manager, OwnerGUARD
